Oral abstract submission: June 30

Early bird registration: August 7

Poster abstract submission:  
September 1

The joint meeting ECBS & ICBS 2015 brings together researchers from screening and drug discovery, systems biology and therapeutic innovation. It will enable the exchange of research driving important discoveries in chemical biology worldwide.

## Session Topics

- Chemoproteomics
- Epigenetics
- Conjugates for targeted delivery
- Antiinfectives
- Molecular Imaging
- Cheminformatics & Chemical Systems Biology
- Probing the structure and function of PTMs

## Keynote Speakers

**Carolyn Bertozzi** | University of California, Berkeley

**Emanuelle Charpentier** | Helmholtz Centre for Infection Research, Braunschweig

**Timothy Mitchison** | Harvard Medical School, Boston

**David A. Tirrell** | California Inst. of Technology, Pasadena
