»Bringing Chemistry to Life«

October 7-9, 2015

Langenbeck Virchow House

Berlin, Germany

The first joint meeting ECBS & ICBS 2015 brings together chemical biology researchers from screening and drug discovery, systems biology and therapeutic innovation.

It builds on the success at the 3rd ICBS2014 in San Francisco and the 3rd ECBS 2012 in Vienna and will enable the exchange of research and professional collaboration and drive important discoveries in chemical biology worldwide.

Session Topics

- Chemoproteomics
- Epigenetics
- Conjugates for targeted delivery
- Antiinfectives
- Molecular Imaging
- Cheminformatics & Chemical Systems Biology
- Probing the structure and function of PTMs

Organising Committee

Philip Gribbon | EU-OPENSREEN
Christian P. R. Hackenberger | FMP Berlin and HU Berlin
Michael Bader | MDC Berlin
Petr Bartunek | IMG Prague
Mark Brönstrup | HZI Braunschweig
Gary R. Lewin | MDC Berlin
Christian Ottmann | TU Eindhoven
Guilio Superti-Furga | CEMM Vienna

Keynote Speakers

Carolyn Bertozzi | University of California, Berkeley
Timothy Mitchison | Harvard Medical School, Boston
David A. Tirrell | California Inst. of Technology, Pasadena

Invited Speakers

Chuan He | The University of Chicago
Bernhard Küster | Technische Universität München
Jordi Mestres | Hospital del Mar Research Inst., Barcelona
Rolf Müller | Helmholtz Institute Saarbrücken
Dario Neri | ETH Zürich
Tudor Oprea | The University of New Mexico, Albuquerque
Jean-Philippe Pellois | Texas A&M University
Hidde L. Ploegh | MIT, Cambridge
Carsten Schultz | EMBL, Heidelberg
Carlo Unverzagt | Universität Bayreuth
